

Dear Parents,

I would like to welcome you to our practice and thank you for the privilege of providing dental care for your child. We are dedicated to making you and your child's first and future visits as comfortable and pleasant as possible while rendering the best dental treatment available. Our entire staff strives to create a fun and compassionate environment that your child will look forward to returning to. We will provide you and your child with information as it relates to maintaining good oral hygiene with the primary goal of being free of dental decay.

Included in this packet is the necessary paperwork to create your child's chart. The enclosed consent for treatment and health history form for your child must be completed and signed by either a biological parent or legal guardian. At the time of your appointment, please have all insurance information with you in order to process your claim promptly. Also, you may return all necessary paperwork to our office by mailing or bringing it with you to your first appointment.

As a way of introducing our office to you, our website contains information concerning our services and office policies. We also use enhanced web services. You can receive e-mail appointment reminders, check and confirm appointments on-line, and review your account 24 hours a day. If at any time during the course of treatment you have any questions relating to fees, policies, or anything else, please feel free to ask our staff or call our office at (864) 229-0305. We will be happy to help.

Again, welcome to an office that is dedicated to caring for children and teenagers. I look forward to working with you and your child.

Sincerely,

Jennifer B. Turner, D.M.D.

Diplomate, American Board of Pediatric Dentistry
